Reviewer's report

Title: Increased vascular endothelin type B and angiotensin type 1 receptors in patients with ischemic heart disease

Version: 4 Date: 28 April 2009

Reviewer: Chunyu Zeng

Reviewer's report:

This revised manuscript did a lot of additional experiments, including arterial function study. Those results are interesting. I still have one concern:
1. In the Figure 1, there are no representative pictures for immunohistochemistry.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
