Reviewer’s report

Title: Emergency Department Triage: an Ethical Analysis

Version: 3 Date: 26 July 2011

Reviewer: Dan Hanfling

Reviewer’s report:

The authors have sufficiently addressed the questions raised and deficiencies noted by this reviewer in the initial evaluation of this manuscript.

While the authors have elected to remove the discussion of START triage from the body of the paper, it should still be included in the Table that summarizes other methodologies for pre-hospital triage (SALT, Sacco, etc).

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I have no competing interests in this paper.
