Reviewer's report

**Title:** Role of an anesthesiology curriculum in improving bag-mask ventilation and intubation success rates of emergency medicine residents: a prospective descriptive study

**Version:** 3 **Date:** 25 October 2010

**Reviewer:** Andrea Vianello

**Reviewer's report:**

The revised copy of the manuscript satisfies the reviewer's request. In particular:
- the methodology section is now adequate: more details have been given about test used for statistical analysis;
- the training period in the operating room has been described more clearly.

**Level of interest:** An article whose findings are important to those with closely related research interests

**Quality of written English:** Acceptable

**Statistical review:** No, the manuscript does not need to be seen by a statistician.
