Reviewer's report

Title: Risk and clinical-outcome indicators of delirium in an emergency department intermediate care unit (EDIMCU): an observational prospective study

Version: 2 Date: 29 October 2012

Reviewer: Mark van den Boogaard

Reviewer's report:

The subject of the study is very relevant and of interest for the readers.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Not suitable for publication unless extensively edited

Statistical review: Yes, but I do not feel adequately qualified to assess the statistics.
