Reviewer’s report

Title: Consensus on items and quantities of clinical equipment required to deal with a mass casualties big bang incident: results of a national Delphi study.

Version: 2 Date: 13 February 2014

Reviewer: Ebbe Billmann B Thorgersen

Reviewer’s report:

The authors have done a thorough job improving the manuscript and all concerns are addressed. In particular, the important weaknesses/difficulties in conducting the methodology of the study is far better enlightened. The article is worthy publication in BMC Emergency Medicine.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
