Reviewer's report

Title: Validation of Ottawa Ankle Rules in Iran: A prospective survey

Version: 2 Date: 5 December 2005

Reviewer: gino M kerkhoffs

Reviewer's report:

General

This reviewer is satisfied with the answers to the questions raised and with the additional information provided by the authors. The manuscript is suitable for publication in its current form. I am convinced that numerous colleagues will find it very interesting to know about the situation in Iran through reading the results and discussion on this elegantly produced study.

Best regards,

Gino Kerkhoffs, MD, PhD

-----------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

-----------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

-----------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

-----------------------------------------------------------------------------

What next?: Accept without revision
