Reviewer's report

Title: Quitline Referral vs. Self-help Manual for Tobacco Use Cessation in the Emergency Department: A Feasibility Study

Version: 4 Date: 25 June 2007

Reviewer: Esteve Fernandez

Reviewer's report:

General

This reviewer congratulates the authors for the effort done to clarify and acknowledge the limitations of the study. The authors have addressed the points. The paper is oriented as a feasibility study, all the major limitations are shown and discussed in the paper, and the conclusions don't go beyond the results obtained.

What next?: Accept without revision

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: Yes, and I have assessed the statistics in my report.
