Reviewer's report

Title: Prehospital score for acute disease: a community-based observational study in Japan

Version: 4  Date: 22 September 2007

Reviewer: Daniel P Davis

Reviewer's report:

General

------------------------------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

------------------------------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

------------------------------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

I would recommend that someone fluent in English review the prose to assure grammatical correctness.

What next?: Accept after minor essential revisions

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.
