Reviewer's report

Title: Reliability of anthropometric measures in a longitudinal cohort of patients initiating ART in West Africa

Version: 2 Date: 17 September 2010

Reviewer: alessandra viganò

Reviewer's report:

The value of the manuscript is improved by the fact that the study subjects are (now declared as) representative of the whole cohort.

The value of the manuscript is improved by the fact that the study subjects are (now declared as) representative of the whole cohort.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare that I have no competing interests
