Reviewer's report

Title: A review of the barriers and facilitators to recruitment of physicians and practices for primary care health services research at one centre

Version: 2 Date: 6 August 2010

Reviewer: Jonathan Graffy

Reviewer's report:

The authors have addressed many of the points raised in previous reviews and the resubmitted paper better reflects the work done and the reality that this is essentially a report on recruitment to studies in one health service setting. The discussion occupies some 1700 words and at times seems repetetive, or to make recommendations which go beyond the specific findings.

Major compulsory revisions
Revise the discussion to express the points made more concisely.

Level of interest: An article of limited interest

Quality of written English: Needs some language corrections before being published

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
