Reviewer's report

Title: How to do a grounded theory study: a worked example.

Version: 1 Date: 11 July 2011

Reviewer: Christie Zunker

Reviewer's report:

• Minor Essential Revisions
  1. I would suggest a more descriptive title. For example, replace “a worked example” with “a dental prevention protocol”.

• Discretionary Revisions
  1. page 16, the first point under “During data analysis” delete “among other things” or add some examples.
  2. page 17, the sentence “Patient also needed time…” I would suggest make “dentist” plural or changing the phrase.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
