Reviewer's report

**Title:** Predicting complete loss to follow-up after a health-education program: number of absences and face-to-face contact with a researcher

**Version:** 4  **Date:** 4 October 2011

**Reviewer:** Vicki Kristman

**Reviewer's report:**

The authors have considered and satisfactorily responded to all of the issues I raised. I agree with their point about some readers wanting to see the p-values, so these could also be included in Table 2 or left in a supplementary table such as the authors have provided.

Thank you for the opportunity to review this paper.

**Level of interest:** An article whose findings are important to those with closely related research interests

**Quality of written English:** Acceptable

**Statistical review:** Yes, and I have assessed the statistics in my report.

**Declaration of competing interests:**

I declare that I have no competing interests.
