Reviewer's report

Title: Imputation strategies for missing binary outcomes in cluster randomized trials

Version: 2 Date: 21 January 2011

Reviewer: Michael Campbell

Reviewer's report:

The authors have addressed my concerns. Whilst they did not always do what I'd hoped, at least they have acknowledged some of the limitations.

P3. 3rd sentence Conclusion Omit 'While'

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: Yes, and I have assessed the statistics in my report.

Declaration of competing interests:

'I declare that I have no competing interests'
