Reviewer's report

Title: Comparing multiple competing interventions in the absence of randomized trials using clinical risk-benefit analysis

Version: 2 Date: 11 November 2011

Reviewer: Francisco-Jose Vazquez-Polo

Reviewer's report:

Authors have made an effort to focus the manuscript on clinical risk-benefit analysis as suggested in my previous report. I acknowledge that authors have done a intensive job responding to the comments of reviewers and rewriting the paper in most parts.

Level of interest: An article of limited interest

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare that I have no competing interests
