Reviewer’s report

Title: Definitions and methods of measuring and reporting on injurious falls in randomised controlled fall prevention trials: a systematic review

Version: 1 Date: 10 November 2011

Reviewer: Magnus Karlsson

Reviewer’s report:

Actually I have no comments or suggestion for changes. I think the paper could be published as it is. The authors may have missed some studies but this is not of importance as the researches make their point accurately with included papers.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
