Reviewer's report

Title: Surveying alcohol and other drug use through telephone sampling: a comparison of landline and mobile phone samples

Version: 2 Date: 21 February 2013

Reviewer: Young Cho

Reviewer's report:

The authors addressed reviewers' comments adequately. I have no further suggestions except one minor comment about the title of Table 2. Consider changing the title to: “Differences between mobile-only vs. landline samples in alcohol, cannabis, and tobacco use” Add “controlled for age, sex, location and education status” as a note.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
