Reviewer's report

Title: The value of functional data analysis (FDA): a systematic review of its application

Version: 2 Date: 6 November 2012

Reviewer: YUKUN WU

Reviewer's report:

There are still some language issues,
Line 2 in paragraph 2 on page 2, ...Papers only report[ing] ...;
Line 5 in paragraph 1 on page 4, ...based on good quality data and [?] generated ...
and many other grammatical errors.
The authors’s response to my second comment is not adequate.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Needs some language corrections before being published

Statistical review: Yes, and I have assessed the statistics in my report.

Declaration of competing interests:

I declare that I have no competing interests.
