Reviewer’s report

Title: Using case study within a sequential explanatory design to evaluate the impact of specialist and advanced practice roles on clinical outcomes: The SCAPE Study

Version: 2 Date: 10 March 2013

Reviewer: Elaine Maxwell

Reviewer’s report:

The authors have addressed the points raised in the previous review and have demonstrated how case study may be used to enhance multi methods research studies

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:
