Reviewer’s report

Title: The agreement chart

Version: 2 Date: 22 February 2013

Reviewer: Guanmin Chen

Reviewer’s report:

The author reported a simple method to visualize the agreement between two raters using the agreement chart. General, this is a nice short report to illustrate useful tool for the agreement between rates. The agreement chart is a useful complement to present the agreement. I have the following suggestions

Major Compulsory Revisions:
No.

Minor Essential Revisions:
1. The title is too short and simple;
2. Please input more details for constructing agreement chart.
3. Please discuss the advantage and limitations for agreement chart.
4. Please add more on how to use the agreement chart to evaluate the agreement.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: Yes, and I have assessed the statistics in my report.
