Reviewer's report

Title: The effect of an internet option and single-sided printing format to increase the response rate to a population-based study: A randomized controlled trial

Version: 1 Date: 5 July 2014

Reviewer: Esharenana E. Adomi

Reviewer's report:

1. Authors need to include information on validity and reliability of questionnaires used.
2. Claims made in the first paragraph of the paper should be supported by relevant literature.
3. Conclusion is too short and do not actually tie up what was presented in the main body of the paper.
4. Authors should include implications of the study and make relevant recommendations emanating from findings of the study.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
