Reviewer's report

Title: Bias and heteroscedastic memory error in self-reported health behavior: an investigation using covariance structure analysis

Authors:

Emil J Kupek (kupek@repensul.ufsc.br)

Version: 3 Date: 8 Oct 2002

Reviewer: Mr Paul J Hewson

Level of interest: A paper whose findings are important to those with closely related research interests

Advice on publication: Accept without revision

The points raised have been addressed to some extent. There is still scope for clarifying the model nomenclature in different parts of the paper for novices to SEM, but it is sufficient for researchers familiar with the concepts.
