Reviewer’s report

Title: Random Allocation Software for Parallel Group Randomized Trials

Version: 2 Date: 7 October 2004

Reviewer: Roger J Lewis

Reviewer’s report:

General

Thank you for addressing the issues that I raised.

-----------------------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

-----------------------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

-----------------------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

It would be useful to have the manuscript again read by a native English speaker, to allow some additional editing of the language.

What next?: Accept after discretionary revisions

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No

Declaration of competing interests:

None.
