Reviewer’s report

Title: Practical considerations for estimating clinical trial accrual periods: application to a multi-center effectiveness study

Version: 2 Date: 21 March 2005

Reviewer: Daniel J. Feaster

Reviewer’s report:

General The authors have successfully addressed all of my prior concerns.

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No
