Reviewer's report

Title: Stability of response characteristics of a Delphi panel: application of bootstrap data expansion

Version: 2 Date: 11 October 2005

Reviewer: Wanda Stitt-Gohdes

Reviewer's report:

General

-----------------------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

-----------------------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

-----------------------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)
There were several grammar/word usage choices the authors may want to reconsider. This revised manuscript is really well developed. The revisions added substantively to the quality of the document.

What next?: Accept without revision

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No
