Title: Planning a cluster randomized trial with unequal cluster sizes: practical issues involving continuous outcomes

Version: 2 Date: 13 March 2006

Reviewer: Allan Donner

Reviewer's report:

General
Thank you for sending me the revised version of this paper. The authors have addressed all my comments very well, and I can enthusiastically offer a recommendation to publish. Please offer my congratulations to the authors for an excellent paper.

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision
