Reviewer's report

Title: Meta-DiSc: a software for meta-analysis of test accuracy data

Version: 3 Date: 30 June 2006

Reviewer: Hans Reitsma

Reviewer's report:

General

-------------------------------------------------------------------------------------------------------------------------------------
Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

-------------------------------------------------------------------------------------------------------------------------------------
Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

-------------------------------------------------------------------------------------------------------------------------------------
Discretionary Revisions (which the author can choose to ignore)

The authors have adequately addressed all points mentioned in my previous review

What next?: Accept without revision

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No

Declaration of competing interests:
