Reviewer's report

Title: Recruitment and retention in a multicentre randomised controlled trial in Bells palsy: A case study

Version: 2 Date: 2 March 2007

Reviewer: Peter Bower

Reviewer's report:

General

None

--------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

None

--------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

None

--------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

None

What next?: Accept without revision

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
