Reviewer’s report

Title: Do intrauterine or genetic influences explain the foetal origins of chronic disease? A novel experimental method for disentangling effects.

Version: 2 Date: 14 May 2007

Reviewer: Anastasia Iliadou

Reviewer’s report:

General
The paper has been substantially improved and i have no further comments.

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Discretionary Revisions (which the author can choose to ignore)

Which journal?: Not appropriate for BMC Medicine: an article whose findings are important to those with closely related interests and more suited to BMC Medical Research Methodology

What next?: Offer publication in BMC Medical Research Methodology without revision

Quality of written English: Acceptable

Statistical review: No
