Title: "What do the JAMA Editors Say When They Discuss Manuscripts That They are Considering For Publication? Developing a Schema for Classifying the Content of Editorial Discussion"

Version: 2 Date: 4 September 2007

Reviewer: Ana Marusic

Reviewer's report:

General
I don't have any more comments, the authors have addressed all my comments, as well as those of other editors.

------------------------------------------------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

------------------------------------------------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

------------------------------------------------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
