Reviewer's report

Title: Comparison of Generalized Estimating Equations and Quadratic Inference Functions Using Data from the National Longitudinal Survey of Children and Youth (NLSCY) Database

Version: 5 Date: 27 February 2008

Reviewer: Rollin Brant

Reviewer's report:

Minor Essential Revisions: The label for Figure 2 is very misleading in that it suggests 4-5 year old children are being compared at various times.

What next?: Accept after minor essential revisions

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: Yes, and I have assessed the statistics in my report.

Declaration of competing interests:
