Reviewer’s report

Title: Disagreement in primary study selection between systematic reviews on negative pressure wound therapy

Version: 4 Date: 10 June 2008

Reviewer: Sally Bell-Syer

Reviewer’s report:

I congratulate the authors on a much improved article. They have taken on board the comments of the referees and the manuscript is much more focused. The additional information obtained from the review authors has helped to clarify several issues which had been present in the earlier draft.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
