Reviewer's report

Title: Relative performance of different exposure modeling approaches for sulfur dioxide concentrations in the air in rural western Canada

Version: 2 Date: 16 June 2008

Reviewer: Asha B. Chelani

Reviewer's report:

The manuscript seems to be corrected as per the queries asked and I recommend acceptance of the same.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: Yes, and I have assessed the statistics in my report.

Declaration of competing interests:

I declare that I have no competing interests
