Reviewer’s report

**Title:** Building blocks for meta-synthesis: data integration tables for summarising, mapping, and synthesising evidence for communicating with health consumers

**Version:** 1  **Date:** 2 December 2008

**Reviewer:** Myfanwy Lloyd Jones

**Reviewer’s report:**

This is an interesting and well-considered piece of work which is likely to be useful to many reviewers. It is well written and well supported by relevant references, and I have no hesitation in recommending that it be accepted without revision.

**Level of interest:** An article of importance in its field

**Quality of written English:** Acceptable

**Statistical review:** No, the manuscript does not need to be seen by a statistician.

**Declaration of competing interests:**

I declare that I have no competing interests
