Reviewer's report

Title: Prevalence Of Problem Alcohol Use Among Patients Attending Primary Care For Methadone Treatment: A National Cross Sectional Survey

Version: 2 Date: 15 April 2009

Reviewer: Anthony Shakeshaft

Reviewer's report:

I am satisfied that the authors have adequately addressed the specific concerns that I raised in my initial review and that these changes have not substantially altered the methods and conclusions of the study. The authors have done a good job revising the paper. I am happy for the paper to proceed to publication, pending the views of the other reviewers and the editorial team.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare that I have no competing interests.
