Reviewer’s report

Title: U.S. Healthcare Providers’ Knowledge, Attitudes, Beliefs, and Perceptions Concerning Chronic Fatigue Syndrome

Version: 2 Date: 25 March 2010

Reviewer: Kristi J Ferguson

Reviewer’s report:

I agree that the authors have responded appropriately to the previous reviewers’ comments, and would recommend publication. A few editorial suggestions:

The word “preformed” should be “performed” on page 7.

In Table 2, it’s unclear what the Mean(sd) column represents. A footnote is needed to show the scale.

For tables 4 and 7, I would suggest have a line between columns 3 and 4, to indicate what’s being compared.
