Reviewer's report

Title: Factors associated with patients self-reported adherence to prescribed physical activity in routine primary health care

Version: 2 Date: 17 April 2010

Reviewer: Carlos Martin-Cantera

Reviewer's report:

Major Compulsory Revisions: The authors have successfully revised the manuscript as per previous suggestions. The Methods section with the subsections reads well, and the Results section clearly lays out the findings in a logical and precise manner.

Minor Essential Revisions: These have been addressed successfully.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: Yes, and I have assessed the statistics in my report.
