Reviewer's report

Title: Key factors influencing adoption of an innovation in primary health care: a qualitative study based on implementation theory

Version: 2 Date: 23 July 2010

Reviewer: Anna Gagliardi

Reviewer's report:

The authors have thoroughly addressed all reviewer recommendations and I have no further suggestions.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare that I have no competing interests
