Reviewer's report

Title: General practitioners' experience and benefits from patient evaluations

Version: 2 Date: 27 June 2011

Reviewer: Chang Shim

Reviewer's report:

Discussion section included the question of self selection of GP's to participate in the study may skew the results and the findings applicability to all GP's.

Discretionary revision:
Tabulation of specific improvements made by the practice would made it easier to the readers.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare that I have no competing interests.
