Reviewer's report

Title: Managing depression in primary care: A meta-synthesis of qualitative and quantitative research to identify barriers and facilitators.

Version: 2 Date: 19 April 2011

Reviewer: Theo Lorenc

Reviewer's report:

Thanks to the authors for undertaking the revisions and responding to my queries about excluded studies. The revisions are acceptable and I would recommend that the revised version be accepted.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.

Declaration of competing interests:

I declare that I have no competing interests.
