Reviewer's report

Title: Exercise therapy for Stress-related Mental Disorder, a randomised controlled trial in primary care.

Version: 2 Date: 3 May 2011

Reviewer: Tim Holt

Reviewer's report:

I feel that my own comments have been addressed. There were quite a number of issues raised by other reviewers but provided they are also happy with their corrections I would recommend acceptance.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
