Reviewer's report

**Title:** The UPBEAT depression and coronary heart disease programme: Using the UK Medical Research Council Framework to design a nurse-led complex intervention for use in primary care.

**Version:** 2  **Date:** 8 October 2012

**Reviewer:** Molly Byrne

**Reviewer's report:**

OVERALL, HAPPY WITH PAPER. 2 SUGGESTIONS:

P 6, PARAGRAPH STARTING 'METHODS', STATES THE WORK CONSISTS OF 4 PHASES, THEN THE AUTHORS GO ON TO OUTLINE 3 PHASES - CAN THIS BE CORRECTED OR REPHRASED?

P 17, FIRST PARAGRAPH, SENTENCE 2, STARTING 'ACCEPTED HEALTH PSYCHOLOGY MODELS AGREE.....'. THIS STATEMENT SHOULD BE REFERENCED AS IT CURRENTLY SOUNDS VERY VAGUE!

**Level of interest:** An article of importance in its field

**Quality of written English:** Acceptable

**Statistical review:** No, the manuscript does not need to be seen by a statistician.
