Reviewer's report

Title: Pharmacist provision of primary health care: a modified Delphi validation of pharmacists’ competencies

Version: 1 Date: 17 January 2012

Reviewer: Siegrid Deutschlander

Reviewer's report:

This is useful, interesting, and original article that adds to the current research on pharmacy competencies. The research question is well-defined. The report is well-written and organized.

1. Major Compulsory Revisions
None

2. Minor Essential Revisions
Abstract: 1st sentence rewording: Pharmacists have expanded their roles and responsibilities as a result of primary health care reform.
p.4 bottom: are these potential contributions or actual contributions?
p.5: Are the domain labels (Advocate, Health care provider, etc) created by authors or existing in pharmacy guidelines?
Table 5: Be consistent with labels (either all nouns or verbs)
Figure1: Can't read percentage for pie wedge between Manager and Communicator (when in black-and white).

3. Discretionary Revisions
None

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
