Reviewer’s report

Title: Feeling Labeled, Judged, Lectured, and Rejected by Family and Friends Over Depression: Cautionary Results for Primary Care Practitioners from a Multi-Centered, Qualitative Study.

Version: 2 Date: 24 April 2012

Reviewer: Claire Anderson

Reviewer’s report:

minor essential revisions

This is an interesting and useful study and is worthy of publication following minor revisions

1. The question posed by the authors is well defined and clear.
2. The methods appropriate and very well described.
3. The data appear to be sound.
4. The manuscript adheres to the relevant standards for reporting and data deposition.
5. The discussion is well balanced and adequately supported by the data but is not adequately linked to other studies that have examined this issue, this needs further work prior to publication.
6. The limitations of the work clearly stated?
7. The authors clearly acknowledge any work upon which they are building, both published and unpublished?
8. The title and abstract accurately convey what has been found.
9 The writing is acceptable

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
