Reviewer's report

Title: What determines income inequality between French male and female GPs - the role of medical practices.

Version: 3 Date: 2 August 2012

Reviewer: anne-laure samson

Reviewer's report:

Dear editor, dear authors,
I am very satisfied with this new version of the paper, which takes into account all my comments. The paper has also been reorganized and it clarifies a lot the reading.

I think this paper should be accepted, but the authors should however proceed to a final reading because I found some typos (line 25: OECD instead of OCDE; line 11: "analysis" instead of "analyse"; line 123: "euros" is missing,.....).

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: Yes, and I have assessed the statistics in my report.

Declaration of competing interests:
