Reviewer's report

Title: Improvement in the management of gout is vital and overdue: an audit from a UK primary care medical practice

Version: 2 Date: 7 November 2013

Reviewer: Swan Yeap

Reviewer's report:

Discretionary Revisions
The authors have satisfactorily addressed my concerns in their revised article. My only comment remains that the authors should consider not using the word "audit" in the title as they have not yet completed the audit cycle. Perhaps "survey" would be better, until their next article with the completed audit cycle.

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
