Reviewer’s report

Title: Prostate-specific antigen (PSA) screening and follow-up investigations in Maori and non-Maori men in New Zealand

Version: 3  Date: 14 July 2014

Reviewer: Lauro Bucchi

Reviewer’s report:

The manuscript has been revised in an extensive manner, and I have no objection anymore to its publication. I think that the current version of the work is much improved, also thanks to the insightful comments of Dr. Hudson and Dr. Zorzi. I encourage the authors to continue to monitor the patterns of access of Maori peoples to health services.

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No, the manuscript does not need to be seen by a statistician.
