Reviewer's report

Title: 24-hour efficacy of once-daily desloratadine therapy in patients with seasonal allergic rhinitis [ISRCTN32042139]

Authors:
   Luis M Salmun (luis.salmun@spcorp.com)
   Richard Lorber (richard.lorber@spcorp.com)

Version: 4 Date: 27 Jul 2002

Reviewer: Dr Andreas Schapowal

Level of interest: A paper of considerable general medical or scientific interest

Advice on publication: Accept without revision

Appreciating the additional details on statistical comparison of the individual symptom scores and the answers given by Dr. Salmun to my comments I now recommend to publish the revised manuscript.
