Reviewer’s report

Title: Can Australian general practitioners effectively screen for diabetic retinopathy? - a pilot study

Authors:

Claire L Jackson (c.jackson@mailbox.uq.edu.au)
Laurence Hirst (l.hirst@mailbox.uq.edu.au)
Inge C de Jong (i.dejong@mailbox.uq.edu.au)

Version: 2 Date: 19 Feb 2002

Reviewer: Dr Mark Gillies

Level of interest: A paper whose findings are important to those with closely related research interests

Advice on publication: Accept without revision

The responses seem fine and publication seems reasonable

Competing interests:
