Reviewer's report

Title: How do patients with alcohol problems present in Australian general practice?

Version: 1 Date: 31 August 2005

Reviewer: Peter Anderson

Reviewer's report:

General

I have read this manuscript several times, and I find the study methodologically sound, and the paper exceptionally well written. Fortunately, this is one of the papers that reviewers like to read, since I have no comments for improving the paper.

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

Discretionary Revisions (which the author can choose to ignore)

What next?: Accept without revision

Level of interest: An article of importance in its field

Quality of written English: Acceptable

Statistical review: No
