Reviewer's report

Title: Barriers to Obesity Management: A Pilot Study of Primary Care Clinicians

Version: 2 Date: 14 May 2006

Reviewer: Jane Ogden

Reviewer's report:

General
The authors have addressed all of my previous comments

---------------------------------------------------------------------------------

Major Compulsory Revisions (that the author must respond to before a decision on publication can be reached)

---------------------------------------------------------------------------------

Minor Essential Revisions (such as missing labels on figures, or the wrong use of a term, which the author can be trusted to correct)

---------------------------------------------------------------------------------

Discretionary Revisions (which the author can choose to ignore)

We have recently published a paper on this subject which could be included: Epstein, L., and Ogden, J. (2005) A qualitative study of General practitionersâ€™ views of treating obesity. British Journal of General Practice, 55, 750-754.

What next?: Accept after discretionary revisions

Level of interest: An article whose findings are important to those with closely related research interests

Quality of written English: Acceptable

Statistical review: No
